IP 54 variable Device mount functional module netlife light management

Device mounts made of galvanised, profiled sheet steel with zinc coating combined with polyester resin paint guarantee good corrosion protection; tool-free attachment with integrated rotary catches for rapid fitting in the support rail. Integrated end faces made of plastic with sealing lips and an all-round closed seal to the support rail for a protection type up to IP54. For integrating sensor technology and the control unit into the light run; can be positioned variably in the support rail. Housing colour traffic white RAL 9016; Electrical connection by means of a 0.7m connection cable for variable device mount positioning in the light run with freely positionable phases. Light Control: netlife pro08; Regiolux Classification: netlife pro; Control signal: DALI2 (Part 303, 304); Communication: Wired; Sensor technology: PIR - passive infrared; Installation height (min/max): 5m to 16m; Monitoring area: max. 30m x 19m; System compatibility: Central DALI2 controllers; DALI system power: 7mA; Note: mounted longitudinally; Application: Industry, Logistics centres; Function: Motion detection, Corridor function, Guided Light, Daylight control. They are exchangeable, permit modernisation and reliably prolong the service life of the overall system. netlife pro; programmable systems; project engineering support by Regiolux; more complex installation; free functions and multiple settings; visualisation; programming and commissioning; interconnectivity and radio solutions; IoT and cloud-capable
